

# Biomass Research

is a Dutch research and consulting company devoted to the sustainable development, land use, and residue valorisation in agriculture and the bioeconomy.

We are looking for a

## Parttime Assistant

To support our team and contribute to the development of our portfolio.

Are you service-oriented, do you enjoy working in a dynamic environment, supporting a small team in state-of-the-art research and development projects? Do you have a pro-active attitude? Then we are looking for you!

You will support the team in practical and administrative tasks including report editing, travels, literature search and project administration. The position provides room to develop your skills and gain project management experience.

### *The company*

**Biomass Research** is a dynamic research and consultancy company that provides advise and services to governments, private companies, NGO's and farmers groups. Our work covers sustainable land use, residue valorisation, biogas production potential, biobased chain development, as well as greenhouse gas and nutrient emission calculations. We are currently working in the Netherlands, Europe and Africa.

**We combine a scientific basis with a pragmatic approach and have a strong emphasis on quantitative research.**

### *We are looking for*

- Proactive personality with a service oriented attitude
- You are flexible and you function well in a small team
- Experienced in working with Microsoft Office (Word, Excel), Google (calendar, Meet, Drive), and Teams
- Strong communication skills
- Good working knowledge of English and preferably Dutch and French

### *Our offer*

Biomass Research offers a competitive salary in dynamic international environment with plenty opportunity to develop yourself. We provide supervision and room to grow. Time requirement to be discussed (expect 12-18 hours per week for a period of 6 months).

Our office is based in Wageningen, but you can partially work from home.

**Candidates should live in The Netherlands.**

### *How to apply*

Interested? To apply please send a motivation letter and CV to [secr@biomassresearch.eu](mailto:secr@biomassresearch.eu) before **June 27, 2022**.

Want more info? Send an email to [jokeline@biomassresearch.eu](mailto:jokeline@biomassresearch.eu) or call **Hans Langeveld** (+31 (0)6 – 520 58 537).
